

## List of Outings for Family Fieldtrips – Fall 2020

---

### **Birds on the Move!**

Look and listen for birds, explore feathers and shape feet. Play the Migration game to determine why some birds fly away! Designed for ages 5 to 10.

### **Who Lives Here?**

Walk a variety of habitats looking for signs left by its inhabitants – chews, tracks, scat and more. Play the Predator/Prey game and cast a track! Designed for ages 6 to 12.

### **Go Buggy!**

Collect insects and determine if they are truly bugs. What does that mean? Come investigate using nets and hand lenses to find out. Designed for ages 8 to 13.

### **Creek Critters**

Don your water shoes and step into the Vlomankill stream to turn over rocks and find the critters below! Use reference materials to identify each critter and to find whether its presence indicates a healthy creek. Designed for ages 8 to 14.
