Friends of Five Rivers – Supporting Environmental Education

Join Us! Become a Member of Friends of Five Rivers.

For over forty years, the Friends of Five Rivers has provided educational programs to the community through the support of an extraordinary group of members, volunteers and donors. By becoming a Friend of Five Rivers, you become part of the collective voice of a community that recognizes the importance of this environmental treasure and its contributions to our quality of life. The strength of that voice is critical to an organization that relies on donations and grants to support its mission.

Although the Center is operated by New York State Department of Environmental Conservation, Friends operates independently. Many of the activities and programs offered at Five Rivers would not be possible without Friends of Five Rivers.

The 450 acres of protected green space at Five Rivers Environmental Education Center is utilized by over 100,000 visitors annually.

Are you a Friend that...

- Enjoys walking at Five Rivers, snowshoeing or spending time bird watching.
- Supports environmental education for children and adults through the Guided School Program, the Family Programs and the continuing education programs.
- Appreciates trails that are accessible to people with limited mobility.
- Believes in the value of internships for prospective naturalist and nature educators.
- Wants to be part of the collective voice of supporters and advocates.

If yes, then join us! **Be a Friend of Five Rivers.**

Friends of Five Rivers is a non-for-profit formed in 1972. It is tax-exempt under the Internal Revenue Code and registered as a charitable corporation under New York State law. Friends of Five Rivers is a private corporation separate from the State of New York, governed by its own Board of Directors and members.

Friends of Five Rivers provides an opportunity for those who love Five Rivers to advocate for and contribute to programs and activities that supplement those provided by the New York State Department of Environmental Conservation.
